Threatening Weather Emergency Plan

In the event of threatening weather such as straight line winds, severe thunderstorms, tornados and flooding, vendors will lower their tents and tie down what they can. Vendors will seek shelter as best they can, more info on this as we get into the market season.

MARKET MANAGEMENT

The Market Manager's job is to coordinate all of the weekly activities and to implement the market's policies. The Market Manager also acts as a conduit of information between the vendors, customers and community partners. The Market Manager has complete authority to interpret and implement policies at the market site.

Quality control is one of the most important factors at the market. Routine inspections may be conducted. If your product is found unfit to sell at the Market, the Market Manager may ask you to discontinue sales of this item immediately. Vendors who repeatedly attempt to sell unfit items or produce may be asked to leave the market.

Extension Certification

For growers, a producer certificate must be completed before selling at the market. The certificate can be obtained through your County Extension Office. A COPY OF THE CERTIFICATE MUST BE IN YOUR MARKET SPACE. Vendors must also bring certificates from any other farms they are selling for. If you have your certificate from last year and have not moved the location of your farm, it may not be necessary to procure another one.

Market Manager Inspections

No wholesale brokers will be allowed. All market vendors should prepare for a site visit by the Market Manager during the season. Failure to allow a site-visit once given reasonable notice may be grounds to revoke your right to vend.

Health and Safety Regulations

It is the responsibility of each vendor to abide by all state and federal regulations which govern the sampling, production, labeling, or safety of the product the vendor offers for sale at the market. Failure to comply may result in forfeiture of the vendor's booth. If you have any questions on this matter, please speak with the Market Manager, the Tennessee Department of Agriculture Regulatory Services, or the Davidson County Health Department.

All processed foods must comply with all applicable state and federal health and safety regulations. A copy of the commercial kitchen certificate or domestic kitchen certificate must be displayed in the booth at all times. Proper labeling must be used as defined by the proper authority. Documentation of certified scales must be displayed in the booth. Proper labeling pertaining to organically grown produce must be displayed.

Insurance

All vendors must provide proof of general liability coverage at a minimum amount of \$1,000,000.00 and name the market as an additional insured. A current certificate must accompany each vendor application & remain on file with the market.

Grievance Policy

Any Vendor or customer with complaints regarding policy or implementation of policy can request a meeting with the Market Manager and will be contacted in a timely manner to schedule a meeting

Compliance

All complaints must be addressed in writing to the Market Manager. Complaints against another vendor, must be accompanied by a \$50 "good faith" check. The Market Manager will then conduct an investigation and/or farm inspection against the accused vendor. If the complaint is found to be valid, the \$50 "good faith" check will be returned. If the complaint is found to be unfounded, the check will be forfeited and deposited in the market's general funds with a letter of explanation sent to the complainant.

All other complaints will be reviewed by the Market Manager in an attempt to resolve the issue. If the manager is unable to resolve the complaint, then a written follow up may be made to the market's governing body. The governing body will address the complaint at the next regularly scheduled meeting. If the complaint is of an immediate nature, the Market Manager may ask for a special convening of the market's governing body to address the complaint. The decisions of the governing body are final.

The submission of application for admission to the market serves as the vendor's agreement to abide by the rules of the market, as established by the market's governing body and enforced by the Market Manager. Violations of the rules of the market may be grounds for warnings, dismissal from the market, or both.

- The first violation of the rules will result in a verbal warning by the Market Manager. Documentation of the warning will be kept on file by the Market Manager.
- The second violation of the rules will result in a written warning, given by the Market Manager. A copy of the letter will be kept on file by the Market Manager, along with any documentation of the violation. Additionally, the vendor will be barred from selling at the market for one week.
- The third violation of the rules will result in dismissal from the market.

At the discretion of the Market Manager, when a violation occurs that jeopardizes the health of a customer, another vendor, market management, or the overall health of the market, the manager may convene the market's governing body to request a suspension of the compliance procedure and call for immediate dismissal from the market. The dismissal will require documented proof of an egregious violation. The vendor will be given an opportunity to review the documentation, prepare a defense, and appear before the governing body.

If after receiving a warning or suspension, a vendor is in disagreement with the Market Manager over the infraction, the vendor may make written application to the market governing body to be heard on the issue. Both the vendor and the Market Manager will appear before the governing body and present their sides of the issue. The decision of the governing body is final.
